BIG FAT HOTEL WRAP

Kahanda Kanda, Sri Lanka unveils two new luxury pool villas

The KK Collection has announced the addition of two new luxury pool villas at its flagship property Kahanda Kanda, located near the thriving tourist capital of Galle on the Southern Coast of Sri Lanka.

The 'Kadju' villa has been designed to take in the sweeping views of the on-site tea estate and lush jungle on which the property sits. Featuring French Windows, intricate Indian prints and a dramatic metal four-poster bed with a canopied top, its unique design consists of a shaded entry pathway and lobby with banquette seating. Boasting classical, tropical interiors and an infinity-edge pool, Kadju has been defined as the perfect opportunity for travellers to experience the best of tropical luxury living.

The 'Kumbuk' villa has been designed as a cottage-style retreat, set in its own large private walled garden – this villa is the ultimate private getaway. Featuring an outdoor, 'under-the-stars' shower and four sets of French Windows, framed by light lime-yellow walls, this exquisite villa overlooks the pool and garden, offering the ideal haven for rest and relaxation.
